

12.17.2025

## 2026 LATE MODEL DIVISION RULES

ACT additions are indicated in **Red** – Seekonk are **Green**

### 1. FRAMES, CHASSIS, and CAGES

A.

All cars will have minimum 104.5" and maximum 105.5" wheelbase, measured from center of lower ball joint to center of rear end, with a maximum tread width of 64.5".

- Tread width to be measured with ACT tread width gauge.
- Tubular frames on all models, main frame rail members shall have a minimum of:

**10"** perimeter tubing - .120 wall thickness – measured 2x3x2x3  
**12"** perimeter tubing - .095 wall thickness – measured 3x3x3x3  
**16"** perimeter tubing - .083 wall thickness – measured 4x4x4x4

**NO NOTCHING or CUT OUTS ALLOWED for suspension travel**

- Sections extending, such as front and rear clips, must be a minimum of 10 inches in perimeter and have a minimum of .083" wall thickness and extend 10 inches minimum beyond wheelbase.
- Rear clip must extend beyond fuel cell area.
- **GM engines will be measured from front of left cylinder head to the center of the left inner pivot.**
- **Ford engine will be measured from front of right cylinder head to center of right lower inner pivot.**
- **Centerline of engine must remain within 1/2" (1/2 inch) measurement of centerline of tread width, measured from the inner pivot point of equal length front lower control arms on both sides of snout. A-frame suspensions will be measured from lower ball joints.**
- ACT perimeter chassis, by definition, must maintain equal lower control arm measurements.
- Material to be used must be DOM or seamless, .090 minimum wall steel tubing.
- Maintain integrity of tubing and wall thickness throughout the construction of Frames, Chassis, and Cage.
- All cars required to have a 4-point or main structure of the roll cage and must be symmetrical in all directions, (See roll cage section Page 2 - B - #5).
- Minimum 1½" diameter tubing inside driver's compartment.
- Four curved horizontal door bars on driver's side.
- Minimum height of door bars 22½ inches from bottom of frame.
- Passenger side three curved door bars with minimum 66 inches between driver's side door bars and passenger side door bars, outside to outside, **or** an "X" bar with approved side body panel supports.
- A so-called "Petty Bar" must run from center of cage to upper right front halo.
  - **Main frame rails and clips may not be pierced or drilled or otherwise altered for purpose of reducing weight.**
  - **All lead must be painted white, with car # painted in contrasting color.**
  - **Bolts must pass through lead and must be secured with proper sized bolt and nut. No pinch bolts allowed.**

#### B. Specifications for Perimeter Chassis and Roll Cage

1. **NO OFFSET CHASSIS ALLOWED, UNLESS SPECIFIED IN RULES.**
2. **Center Section Frame Rails:** Measured from inside to inside at MINIMUM 52 inches with **1/4 inch tolerance.**
3. **Offset:** Maximum offset allowed 1" from center line measured ½" from center line equally side to side with a total of 1" maximum offset. Center line determined by using center section measurement (see page 1-B-#2).

#### 4. Roll cage/Halo

-Roll cage structure will be made of 1  $\frac{3}{4}$  O.D. inch tubing with .090 minimum wall steel tubing.

-Additional components within the center roll cage section must be minimum 1 $\frac{1}{2}$  inch diameter tubing and minimum .065 wall steel tubing

-Integrity of the roll cage must be maintained

-Height of roll cage total symmetry to be no less than 40"

-Total height of Halo to be no less than 1" lower than cage

-Width of Halo measurement minimum 44" measured from outside to outside tubing

-Rear roll cage posts must be attached to frame rails in a direct diagonal straight line from the firewall (see diagram for further clarification -page 15)

#### 5. The center of fuel cell must be within $\frac{1}{2}$ " of centerline measurement of center section

C. 18" gauge steel minimum, 18 inches high foot firewall. Top of foot box must be 18" gauge steel. 9-inch-high driver's tunnel and 18 inches high behind seat.

A "Red Mead" bar or 1/8" minimum steel plate is mandatory under driver's seat (see diagram Page 15) A foot safety bar is mandatory. A support for headrest or seat back extending to support back of head is mandatory.

D. No cluster type digital dashes allowed. NO acquisition/computer data allowed of any kind.

## 2. **INTERIOR DETAIL - SEEKONK**

A. A full width dash is required in all cars. Vertical surface of dash must project in a single plane across the car. Top horizontal plane of the dash should carry forward to the firewall and enclose entire area beneath windshield. Instruments must be neatly mounted to vertical plane of dash panel.

B. Interior of car must be completely enclosed with respect to engine compartment, track surface, tires and rear fuel cell compartment. Interior panels must be minimum of .040-inch thickness of aluminum or steel.

C. **Only one rear view mirror inside car – SEEKONK- SINGLE PLANE ONLY approved.** A left side exterior mirror is approved but cannot extend outside of the windshield "A" pillar.

D. **No rub rails allowed outside car. Polycarbonate type approved by Seekonk.**

## 3. **ELIGIBLE BODIES - See diagram – Page 16 for measurements**

### A. **Bodies**

- Bodies must be aftermarket made of plastic or aluminum with rubber front and rear bumpers, fiberglass hoods and window frames.
- ACT approved bodies only. **NO CARBON FIBER BODY PANELS.**
- **Bodies must meet tech visual approval – weight penalties may be imposed at tech director's discretion for violations. No mixing and matching of manufacturer body panels.**

B. ABC bodies are required. Fiberglass quarter panels will be allowed. "Rubber" quarter panels may be used upon availability. All ABC bodies must meet manufacturer's "Referee" technical inspection and be mounted as "**OUT OF BOX**".  $\frac{1}{2}$ " tolerance of any measurement with templates will be allowed. **Front and rear bumper covers must be mounted center to centerline of chassis.**

C. **THE GEN 6 LATE MODEL BODY AND AR BODIES EVOLUTION RE-SKIN KIT AND BODY ARE ALLOWED FOR ACT COMPETITION. MUST FIT TEMPLATES AT ALL TIMES.**

Any variations need tech approval and may carry penalties.

- Plastic roof panels are optional.
- MAX Body width at widest point 79½ inches.

E. **All body panels must be complete in length and width:** Absolutely no cutting or altering door, fender, roof or quarter panels. A-Post, door and fender should meet as shown in diagrams on pg. 15. Overall workmanship shall be a determining factor as to whether a car shall be approved for competition. Specified components' compliance to templates and overall level of workmanship and appearance will be considered by technical inspectors.  
**(See diagrams – Pages 15-18 for body measurements).**

F. No bumper tubing or bracing is allowed lower than front or rear bumper covers.

G. **ABC body measurements must be strictly adhered to – templates will be used to measure from front windshield to rear spoiler, and from right quarter panel to left quarter panel, with ½" tolerance, when determined by ACT officials.**

H. ABC noses are required to have a minimum measurement of 20" from bottom of valance to hood depression measured at center of nose.

I. NO panning under car allowed! Complete discretion of tech officials. Any quote/unquoted pan/lead tray larger than 7" x 14" MUST have holes no smaller than 3" diameter and spaced 6" on center from each other.

J. **AR Revolution (Rev) bodies**

**All AR Rev bodies must use 4½" high and 58" long rear spoiler mounted in center of body. All AR Rev bodies for the 2026 season will carry a weight of 2020 lbs, with 57% left side.**

K. **Five Star NextGen Late Model Stock bodies**

**NextGen Late Model Stock body will be allowed. Body may be mounted at 47" roof height and must run in its entirety.**

**Late Model Stock bodies will run 64½" long, 5" high spoiler at 70° or 90° only.**

L. **2026 will be the final season for the 10" front fender on ABC bodies. ACT will be going back to the 8" front fender on ABC bodies in 2027.**

**NASCAR / Seekonk contingency sponsor decals are required on each car per the guidelines of the decal kit provided by NASCAR. The full package must be placed where shown in the kit. If there is a failure to comply with the decal package NASCAR and Seekonk can reduce point fund awards. These sponsors contribute to the point fund that is given out to the top ten in points. Feature win prize money will also be reduced if the decal kit is not displayed on cars. Contact the track for decal kits at the start of the season or if needed during the race season. Thank you for your participation.**

**4. SPOILERS**

- ALL REAR SPOILERS MUST BE MADE OF LEXAN AND MUST REMAIN CLEAR, maximum width of 60 inches wide and 5 inches high. All heights reference to ABC body dimensions. No side enclosure, no lips or bends in upper portion of spoiler and must be flush to vertical surfaces of deck lid **and must be mounted center of rear bumper cover.**
- ABC spoiler heights will be according to instruction manual and will be subject to approved inspections. Measurement will be from top flat surface at the end of trunk lid to ground at 34-7/8". See spoiler section above for approved spoiler size, (60 inches wide and 5 inches high).

C. All spoiler **MUST** have a minimum of **FOUR** external spoiler braces, two for each half. Braces **MUST** be **BOLTED** on each end, **NO** pop rivets.

## 5. **EXHAUST/HEADERS**

A. Exhaust

- **Absolutely no sensors in any part of exhaust system.**
- Absolutely no additional holes, vents, etc., may be added to body components outside stock configuration.
- Exhaust holes may be cut.
- Recommended that exhaust exit under car or may exit outside of car. If exhaust exits under Car, it must point toward racetrack and maintain 4" ground clearance.
- Exhaust must exit in duals.
- Two *unaltered* Magnaflow #11219 mufflers are required.
- Steel pipe must be used to extend beyond driver seat and may not be cut or modified and MUST be installed in correct flow direction and used in its entirety.
- Exhaust pipe exit maximum size 3-1/2 inches.
- No scavenger systems.
- MAGNAFLOW Muffler Part #11219 **MUST** be used.
- Weekly or touring competitors must be in compliance with track and/or local ordinance rules.

B. Headers allowed. No 180-degree headers allowed. All 4 tubes from right and left banks of engine must enter single collector on each respective side of exhaust. No balance tubes or any crossover type exhaust systems allowed. Must be made of mild steel, no stainless.

## 6. **WINDOWS**

A. A full stock dimension windshield is mandatory and must be constructed of 1/8<sup>th</sup> inch minimum thickness lexan. Three internal windshield braces spaced at least on 5-inch centers and roughly centered upon windshield constructed of minimum 1 inch wide by 1/8-inch-thick material are mandatory.

B. Models with rear quarter windows may have stock openings covered with securely mounted solid, clear lexan. Rear side window may have approved air vents for driver. "A" pillar windows not to exceed **12"** in any direction measured from front of door opening. No interior air deflectors allowed.

C. A full dimension rear glass constructed of minimum 1/8<sup>th</sup> inch thick clear lexan is mandatory and must be held securely in place. **Back window must be securely braced internally to prevent significant bowing or distortion at racing speed.**

## 7. **NUMBERS - SEEKONK**

A. A quality paint job is mandatory on all cars with **high contrast** numbers for legibility day or night. Bodies must always be kept neat and painted. No metallic numbers.

B. A minimum 24-inch high, 3-inch stroke number is required on the door area on both sides of car. A minimum of 30-inch high, 3-inch stroke number is required on top of roof facing the passenger side of car. A block style number is REQUIRED on right (passenger side) front windshield. All numbers must be **SEEKONK** registered and/or assigned. Number alterations may be required at any time by **SEEKONK** to avoid duplication.

## 8. **CHASSIS/BODY HEIGHTS**

A. Minimum ground clearance of any component is **"4 INCHES"** with driver in car.

## 9. **WEIGHTS**

A.

1. **AR Rev bodies will be 2820 lbs. with 57% left side**
2. **Five Star NextGen & Late Model Stock Body will run at 2770 lbs. with 57% left side.**

**\*NOTE: Any ABC body that complies with the template will be allowed to run 2770 lbs. with 57% left side. \***

3. **Any body that does not meet template and visual inspection by tech will have one opportunity to correct, otherwise it will run at 2820 lbs. with 57% left side.**  
(Weights subject to change in the interest of parity)
4. **All cars will be weighed POST-RACE with drivers. SEEKONK**

5. **Cars must have a maximum 57.0% of total weight on left side.**
6. All heights will be measured with driver in car, including after heats and features unless otherwise notified.

B. **Cars must weigh approved weights after all qualifying heats and feature events. SEEKONK.**

C. Ballast weight must be securely attached to main frame rail or major cross member structure. Ballast is not allowed to be mounted beyond centerline of wheelbase. No tungsten, lead shot, ball bearing type, or liquid type ballast permitted. No moving weight is allowed. Additional brackets or weight holders beyond main frame rails must be approved by technical committee and may require modification or elimination upon inspection. Any questions can be addressed at practice sessions prior to season opening events.

## 10. ENGINES

### APPROVED ACT ENGINE BUILDERS

**RPM RACING ENGINES LLC**  
802-524-7406

**LARRY'S AUTO MACHINE**  
860-449-9112

**NAT'S RACING ENGINES**  
508-336-4142

**REDLINE PERFORMANCE ENGINES**  
207-418-1695

**MAC ROD SHOP LLC**  
418-389-4572

**PRO-MOTEUR**  
450-759-5362

**NOVA MOTORSPORTS**  
248-767-9560

**DRIVR PERFORMANCE**  
844-475-6888

### ENGINE BUILDERS MUST USE ACT PROCEDURES AND SEALS.

- A. Certain individual track rules (including motors) may be subject to ACT inspection, procedures, weight penalties, restrictor plates, and any other modifications ACT deems necessary in the interest of competition.
- B. #GM 88958603 or **19318604 ACT sealed motor only.**
- C. **ALL MOTORS MUST BE REGISTERED EACH YEAR WITH THE ACT OFFICE.**  
**Cars racing only SEEKONK do not have to register motors with ACT.**
- D. Roller rocker arms are approved for GM 603 engine option only. ONLY GM part number **19210724** OR GM set number **19210728** PR Scorpion part number 1035BL are approved. These are 1.5 ratio rocker arms.
- E. **FORD MOTOR:**
  1. ACT approved **M-6007-S347JR** Ford Motor only. **Must meet all specs as determined by ACT.**
  2. Only Ford spec motors which are ACT approved will be allowed to compete in ACT-sanctioned events. Rear starters are allowed on Ford engines ONLY. FORD Quarter Master clutch #298308 with attaching ring gear #110010
- F. **GM PERFORMANCE SEALED 602 MOTOR:**
  1. Any use of HEI distributor must run an external rev limiter. **6300 chip Mandatory.**
  2. **THE 602 LMS MOTOR WILL NOT BE ALLOWED TO BE REBUILT OR REFRESHED.**
- G. Engine Options

#### FORD 347JR

- M-6007 / W4412 Holley 500 CFM with HVH #334412-2AL and Max 6300 Chip

#### GM 602

#### GM 603

#### GM 604

- Bottlecap (Non-Rebuildable) with #80541 650 CFM Holley and Max 6300 Chip
- 4412 Holley 500 CFM and HVH #334412-2AL Spacer and Max 6300 Chip
- 80541 Series Holley 650 CFM and Open Center Spacer (See pg. 7, #12) with ACT Restrictor Plate with Max 6300 Chip
- **ACT Bottlecap Option – *Must be purchased through RPM, Redline or Larry's Auto ONLY*** - 80541 Series 650 CFM with Open Center Spacer, ACT Restrictor Plate and 6300 Chip

**\*ACT Restrictor Plates Available for Purchase at ACT Office and/or Tech Trailer\***

## **11. IGNITION**

- A. 6200 RPM MAXIMUM recommended for Chevrolet engines, **but will be restricted to a maximum 6300 chip, and may be required at certain tracks. Fords will be allowed to run a maximum 6300 chip at all events. The chip rule may be amended for certain tracks, and teams will be notified in the entry form. The chip rule may be amended in the interest of competition at any time.**
- B. **JMS Ignition System**
  - JMS Part #6000 6701K 'JMS CD-1 Race Ignition'.
  - No Altering, easy mounting to be swapped out at inspector's discretion.
- C. **MSD distributor IS allowed. Must contain light blue springs and blue advance stop. Spring and stop part number 8464, distributor numbers MSD 85551, 8570, 85561 or GM part # 10093387 are only approved parts. MSD 6AL Series allowed and connected with weatherpack connector.** No tampering or changing of advancement weights or springs allowed in HEI spec motor distributor.
  - MSD must use external coil.
  - Ends must be original factory MSD or weather pack connectors installed by MSD.
  - It is the responsibility of the competitor to configure harnesses to allow the ACT MSD to connect.
  - **Ignition Box must be located on the right side of dash panel as far from driver as possible, and out of reach.**
  - All wires must be wrapped in a loom material and must pass through firewall at first option. Rivets to hold bottom panel must be drilled out.
  - ***Only one ignition box is allowed. Any altering of ignition box will result in disqualification and possible suspension.***
  - ***Any HEI distributor must run an external rev limit.***
  - ***The Ford M.6007.S347JR will be allowed to run the MSD8582 or 8579 distributor.***

## **12. SPACERS**

- Following **carburetor** spacers are allowed for GM 603 with 4412 Carburetor:
  - Canton #85060
  - Moroso #64964 (aluminum)
- HVH #SS4412-2AL is approved for GM 603 engine and S347JR Ford engine.
- ***Any teams using the "604" with 4412 Carburetor MUST use "RPM 1445" Restrictor/Spacer.***
- ***GM 603 and 604 with 80541 Series 650cfm Holley Carburetor will be allowed to run ANY straight flute, open centered spacer minimum 3/8" tall to maximum 1" tall.***

## **13. HEIGHTS**

- Four (4) inch frame height measured at the lowest point including cross members.
- 47-inch roof height measured 10 inches back from windshield to ground or ABC body must meet Referee standard.
- 11-inch engine height measured from center of crank front to ground.
- Skid plate is mandatory if oil pan is below cross member.
- ***Fuel cells must be a minimum height of 8 inches from ground.***

NOTE: (All heights measured with driver (no substitutes) in car **and all measurements are official with SEEKONK gauges ONLY.**

## **14. CARBURETOR, FUEL and FUEL SYSTEMS**

A. A stock 4412 Holley 500 CFM carburetor only is allowed for the **GM 603** motor and Ford motor. Absolutely no material may be added or removed from carb, except bolt-on choke mechanism only may be removed. Air filter housing and fresh air box only. **Fuel must not mix with water or any additives.**

B. **FUEL**

1. Fuel cells are mandatory and must be approved by technical inspector. Minimum 15-gallon **capacity** and maximum 22-gallon fuel cell only. It is mandatory that the fuel cell be enclosed in a 20-gauge welded steel box, with a bolt-on cover constructed of twenty-gauge steel and must be protected in back and on sides by .095 1-3/4" O.D. tubing. Fuel cell will be no less than 14 inches from centerline of rear axles to front of fuel cell.
2. Sunoco Race Fuel is the "Official Fuel" and New England Racing Fuel Inc. is the approved "fuel supplier" for the ACT.
3. Sunoco Standard Purple 110 Leaded is the ONLY fuel allowed
4. **SEEKONK** has the right to sample a competitor's fuel at any time during the event.
5. Fuel samples may be impounded for testing to the manufacturer's specification.
6. Any blending and/or mixing of fuels either of or not of the approved fuels is not permitted.
7. No MTBE, ethers, alcohols, ethanol's, nitrogen, nitro compounds, performance additives or any other oxygenates may be blended/mixed or introduced into the fuel supply either at the fuel cell or upstream in the fuel system.
8. Thunder Road and WMMP Late Model teams must run Sunoco OR non-ethanol pump gas.
9. Any fuel line passing through interior must be inside of steel tubing.
10. Check valve vent is required on all fuel cells with hose exiting out of the tail through a spring damper overflow check valve. Securely fastened to the chassis, not to the tail. **NO ZIP-TIES.**
11. No "QUICK FILL" fuel mounting allowed. Outside fuel fill **optional** with cam type fuel cap.
12. Fuel pump must be mechanical- no electric fuel pumps. **Optional - AN inline fuel pressure regulator will be allowed; Holley part number 12-803 "ONLY".** An "OBERG SV0828" of SRI Performance #FPF. FSV fuel line safety check valve anti-siphon is **MANDATORY** mounted at the outlet of the fuel cell.

**\*NOTE\* All competitors must prominently display a Sunoco Racing Fuel Patch on driving suit and display Sunoco Racing Fuel contingency decal on both sides of the car in a location specified by ACT series. No other racing fuel company decals can be displayed on the car or driver's suit.**

**15. STEERING**

- A. Any type of front steering allowed. Steering box or rack and pinion are allowed.
- B. Power steering pumps must be driven from the front of motor by belts. Steering columns must have minimum of two U-joints.

**16. SUSPENSION**

**NO TITANIUM PARTS OF ANY KIND ARE ALLOWED IN ACT RACING.**

- A. Any spindle made of steel. Removable steering arms must be made of steel. Spindles must be same offset left to right.
- B. Any stock or aftermarket upper and lower control arms allowed. Lower control arms must be same length left and right. Heim joints are allowed. Measurement will be from center of mounting point to center **grease fitting**. Jacking bolts allowed. **Must use** only one shock per wheel. **Must use** only one spring per wheel. NO double springs allowed. No devices to limit or stop suspension travel allowed.
- C. All springs must be made of steel—magnet must stick to spring. Coil-overs permitted. **If running - over all parts must be same left to right and front to rear.** Spring rubbers will be allowed, must be wired in place. **Maximum of 1 spring rubber in any spring and must be approved in size and shape by ACT. Aluminum, steel, or additives are not allowed in spring rubbers and will not be allowed to overlap itself.**

D. **NO SUSPENSION TRAVEL LIMITING DEVICES ALLOWED UNLESS SPECIFICALLY OUTLINED IN THE ACT RULEBOOK.** (Examples include, but are not limited to bump stops, coil binding, chains, or shock mounting locations).

E.

- i. Front of car will be inspected with driver in car on  $\frac{3}{4}$  inch boards and pushing down until nose is on the ground by crew members.
- ii. Rear of car will be inspected with driver in car by measuring rear spring then compressing  $2\frac{1}{2}$  inches.
- iii. **ABSOLUTELY NO COILS** will be allowed to touch each other in front or rear of car or any other travel limiting per the discretion of Tech Official if it is legal.

H. Cars will be inspected by being pushed *down and held down* by crewmembers and will be at the discretion of Tech Officials whether it is legal.

I. Bumper must be mounted **SOLID**. No hinges or slides – must always comply with nose height rule.

J. The intent of this rule does just one thing...it eliminates **bumping** for cars that compete in ACT sanctioned events.

**VISUAL INSPECTION BY OFFICIALS TO MEET THE “NO BUMPING ALLOWED” RULE WILL BE UP TO CHIEF TECH INSPECTOR AND CONSIDERED FINAL.**

G. NO pre-loaders of any type allowed.

H. NO Coil-over Eliminators of any kind allowed on ACT Late Model approved cars.

**17. SHOCKS**

**BRANDS APPROVED ARE KONI / QA1 AND MUST BE RUN AT ALL SEEKONK/ACT EVENTS.**

**KONI SHOCKS**

**KONI Model #:**

KON30-7436	KON30-9325
KON30-7499	KON30-9436
KON30-7325	
KON30-7647	

1. No KONI approved 9" shocks will be allowed on the front of cars. Approved KONI shocks are mandatory 7" on the front and 9" on the rear ONLY.
2. A 7" shock at approved race ride height will maintain a maximum compression of within 3.5 inches (there will be a reasonable variance not to exceed .5 inches at the sole discretion of the technical inspector).
3. A 9" shock at approved race ride height will maintain a maximum of 4.5 inches (there will be a reasonable variance not to exceed 1 inch which will be at the sole discretion of the technical inspector).
- Shock bump stops enclosed with KONI package will **NOT** be allowed for use on ACT approved KONI shocks. **Absolutely no removing of the plastic cap on the end of shock barrel.**

**QA1 SHOCKS**

**QA1 Model #:**

6375-400	6394
6375-500	6394-6
6375-650	6395-3

6375-850

1. No QA1 approved 9" shocks will be allowed on the front of cars. Approved

QA1 shocks are mandatory 7" on the front and 9" on the rear ONLY.

2. A 7" shock at approved race ride height will maintain a maximum compression of within 3.5 inches (there will be a reasonable variance not to exceed .5 inches at the sole discretion of the technical inspector).
3. A 9" shock at approved race ride height will maintain a maximum of 4.5 inches (there will be a reasonable variance not to exceed 1" which will be at the sole discretion of the technical inspector).

- ALL measurements for KONI / QA1 will be done with driver in driver's seat.
- Only KONI / QA1 part numbers listed are approved for ACT Late Model competition.
- NO changing or altering KONI / QA1 shock in anyway.
- KONI / QA1 shocks MUST NOT be painted, and model numbers must be fully legible.
- KONI / QA1 brand shocks can be mixed and matched on car.
- Shocks may be swapped at any time with ACT inventory by ACT Tech Inspectors.

## **18. SWAY BAR**

- A. Aftermarket one solid bar side to side only. MUST be mounted on bottom side of front clip & work off the lower A-frames. NO rear sway bars are allowed.
- B. Sway bars must be mounted parallel with front cross member and will be measured from rear of engine with 1" tolerance.

**Maximum sway bar diameter 1.75"**

## **19. BRAKES and HUBS**

- A. Any safety or racing type hubs allowed made of steel, aluminum, or magnesium and of same offset right and left. 5x5 or wide 5 bolt patterns allowed. Front brake rotors must be a minimum of 1 inch thick and made of steel. Rear brake rotors must be minimum  $\frac{3}{4}$  inch and made of steel.
- B. Brakes (all four) must be single piston calipers made of steel and must be GM D154 type or D52 type replacement calipers only, all four brakes must be in good working order.  
Master cylinders and pedals of any type are allowed.  
NO turn style piston calipers or spring-loaded piston calipers allowed – NO internal pressure adjustments allowed in calipers.
- C. Brake duct allowed no blower. Ultra Cool Brake Fans are allowed, steel or aluminum. You **MUST** maintain tread width.

## **20. REAR ENDS**

- A.
  1. Rear ends must have floating type bearing and hub such as quick change or "non-quick" change, front load quick change, or steel housing-type 9" floater with **steel center section gear carriers only** allowed.
  2. No cambered rear ends or rear ends with yaw (dog tracking), or offset or shimmed snouts allowed.
  3. No crowned axles.
  4. All rear ends must be driven with solid drive flange plates.
  5. **NO TITANIUM PARTS ALLOWED.**
  6. All running gear drainage plugs must be safety wired.
  7. No rear axle tube tow in or out allowed.

8. Minimum outside diameter of rear axle shafts allowed is 1.050 absolute.

B.

- Rear ends **must have spool ONLY**. At select events, a rear end gear rule will be in effect and posted in entry forms.
- No gold tracks or any type of ratchet or limited slip.
- Drive shafts must be made of steel and must be painted white.

C.

- Truck arm or three-point type rear mounting is allowed.
- Rear trailing arms may use rubber bushings and heim joints.
- No spring rods.
- **Only one rubber snubber in any of the three-point trailing arms or third link, your choice which one. Maximum three rubber biscuits per snubber, no springs.**

D. Solid tubular pannard bar only. One bar, two adjustable heim joints only.

E. No aluminum truck arms, no fifth coils, no Watts linkage, no torque arms, no mechanical devices to transfer weight while car is in motion allowed.

## **21. COOLING SYSTEMS**

1. Any radiator allowed overflow must blow on right lower quarter of windshield.
2. ACT-approved spec motors may run electric fans.
3. Stock cast water pumps or aluminum pumps are allowed. Oil coolers are allowed.
4. NO antifreeze will be allowed.

## **22. TRANSMISSIONS/CLUTCHES**

A. Transmissions must be stock **GM** standard 3-speed.

- The early Muncie and later Saginaw three-speed stock transmission are the only GM transmissions approved for competition, with the following exceptions:
  - a) REM polishing is allowed.
  - b) No rollerized gear on main shaft allowed.
  - c) No other altering of transmissions will be allowed without written approval by ACT.

1. No automatics allowed.
2. Steel type bell housing mandatory for conventional clutch use.
3. No carbon fiber materials will be allowed in clutch assembly.
4. Mandatory bell housing must remain 360° and shall not be altered, except for inspection hole not to exceed 2" in diameter to be drilled in bottom of bell housing.
5. Aluminum bell housing will be allowed with disc clutch and ACT crate motor.
6. Shifter may be any type – single or two rod.

B. Disc clutch assembly that will be the ACT Late Model approved clutch:  
**Quarter Master Part #: 298103ZZ – 7.25 2 disc-V-drive / Tilton Part #: 56-4206**  
**(2Disc Clutch 10 spline LMC w/Neutral Button)**

**Quarter Master Part #: 298308 / Tilton Part #: 56-4506**  
**(2Disc Clutch 10 spline with Ford Button)**

**OEM replacement flex plate from Allstar or Pioneer allowed**

## **23. STARTERS**

A. Reverse mount starters allowed **only on Ford engines**. Starters must remain in stock location.

## **24. TIRES and WHEELS - SEEKONK**

A. SEEKONK approved tires only TBA. SEEKONK tire rule is in effect for all events.

B. Specified tire mandatory on all four wheels. Tires are available at track. Tires must be on an 8" rim mandatory. Front wheels must maintain same offset left and right 64.5" tread width. Rear wheels must maintain same offset left and right 64.5" tread width. Must be aftermarket racing type wheels made of steel. Wheel spacers may be used and **must be one-piece wheel spacer MANDATORY – on wide 5 hubs. Maximum ½" thick spacer per wheel**. Lightening of wheels of any kind not allowed – must be stock out of box.

**ALL MEASUREMENTS ARE OFFICIAL WITH SEEKONK GUAGES.**

**OFFICIAL MEASUREMENT IS 72½" - MEASURED FROM OUTSIDE TO OUTSIDE OF RIMS, WITH DRIVER IN CAR.**

- C. Chemical treating of tires **WILL NOT BE** allowed. No shaving of any tires allowed in the SEEKONK/ACT Late Model division.
- D. Tire clean up with scraper blades allowed. No steel brushing or any form of liquid allowed to clean tires.
- E. Questionable tires, or tires not meeting above criteria as determined by officials, may be confiscated by officials and could result in disqualification, and/or other penalties.
- F. Tire Bleeders are permitted.

**25. Safety Requirements**

- A. Fire retardant driver's suit highly recommended. Fire retardant gloves **MANDATORY**.
- B. All cars must have safety cutoff switch on driver's right-side crossbar. Must be within reach of driver and accessible to safety crews from both left and right side.
- C. Aluminum racing seat mandatory **or carbon fiber seat allowed with SFI safety rating of 45.1**. Driver's seat must appear as close to stock position as possible and must be securely fastened (bolted, not tack welded), to rollcage and frame members and not to floorboards.
- D. Quick release aviation-type minimum 3" safety belts required. Shoulder harness required to be fastened to rollcage, not in gussets. **Cam-lock type allowed. Shoulder harnesses must be NO less than 2" wide "IF" passing over head and neck restraint system.**
- E. An approved driver's window screen mandatory. Requires seat belt type latch. Must be attached at top and bottom front by single seat belt locking device and 3/8" steel rod top and bottom, **or spring lock type allowed**.
- F. Rollbars must be padded in driver's area. Center of steering wheel must be padded.
- G. Two drive shaft loops to fully enclose drive shafts mandatory, no less than 1" wide and 1/8" thick must be placed around drive shaft front and rear attached to the floor or cross member.
- H. The following are suggested to aid in your safety: goggles, fire retardant socks and undergarments, DOT or SNELL approved automobile racing helmets.

**26. MISCELLANEOUS - SEEKONK**

- A. Contact SEEKONK office (508-336-9959) for licensing information. All SEEKONK competitors will be required to have a NASCAR license; TEMP license may be obtained at the track only. No metallic numbers. **Numbers on roof shall be readable from front stretch tower position for Race Control.**
- B. **All cars must have a permanent mounting bracket for their AMB SEEKONK transponder. Transponder will be measured from center line of front inter pivots to center line of the transponder (112 ½"). Refer to the diagram and information on page 19 for bracket location.**
- C. Race procedures, inspections, and safety regulations will be governed by SEEKONK officials in the best interest of the sport. Teams should read through the Seekonk General rules to familiarize themselves with all rules. These rules and procedures must be adhered to by all who enter the property.
- D. Radios will be allowed for the Late Model division. **One spotter per car is required in designated area for feature event.**  
**The following is MANDATORY**

A. A minimum of (2) two-way radios are required per car with communication between the driver and a crew member.

B. **All teams must have 1 scanner programmed to receive the SEEKONK race control frequency (454.500) and must always have a crew member monitoring this channel during every ACT event.** This crew member must be able to communicate directions to the driver via the two-way radios referred to above #26 E-1.

- Spotters are required to have car numbers visible on both right and left headset ear cuff, and back of headset.
- No traction control devices will be allowed.
- ***Competitors wishing to participate in purse payouts and/or point funds must run decals as required by SEEKONK / NASCAR***
- **NO ANTIFREEZE** – if found in violation you will be fined.

The rules and/or regulations set forth herein are designed to provide for the orderly conduct of racing events and to establish minimum acceptable requirements for such events. These rules govern the condition of all events, and by participating in these events all participants are deemed to have obtained, read, and understood a copy of the current rules, and complied with these rules. NO EXPRESS OR IMPLIED WARRANTY OF SAFETY SHALL RESULT FROM PUBLICATION OF OR COMPLIANCE WITH THESE RULES AND/OR REGULATIONS. They are intended as a guide for the conduct of the sport and are in no way a guarantee against injury or death to a participant, spectator, or official.

All rules are subject to change in the interest of competition.

Rules **EIRI 111125**

## Full Perimeter Chassis

### Typical Front View

Frame reinforcement recommended for existing cars.  
Frame reinforcement REQUIRED for new cars.

SEEKONK uses the **AMB transponder system**. If you currently use an AMB transponder you will be allowed to use yours in our event. If you do not you will be issued a rental transponder on the day of the event.

#### **Late Model Transponder Mounting Locations**

The transponder must be mounted in compliance with the diagrams provided below. It must be mounted on a bracket inside frame rails. **The center of the transponder must be 112½ inches back from the Center Line of the Front Inner Pivots (see diagram #1).** Also, the bottom most part of the transponder should not be below the bottom most part of frame. Transponder must be mounted in a direct horizontal plane (see diagram #2) to the ground with label side down and lights point towards the rear of the car. The clearance from the racetrack to the bottom of the transponder should be as close to a maximum of twelve (12) inches as possible.
